OVERVIEW

This course introduces fundamental Pro Tools concepts and principles, covering everything an individual needs to know to complete a basic Pro Tools project, from initial setup to final mixdown.

Students also learn to build sessions that include multi-track recordings of, MIDI sequences and virtual instruments. Hands-on exercises and projects introduce essential techniques for creating sessions, recording and importing audio and MIDI, editing session media, navigating sessions and arranging media on tracks, and using basic processing and mixing techniques to finalise a production.
